

How can I work on my French at home?

We subscribe to a website, www.linguascope.com, that you can access from home on and it is a really useful way of being able to learn / memorise key vocabulary. The log-in details are as follows:

Username: parkfields

Password: Please see your planner or contact Miss Cooper for further information (coopers@parkfields.cbeds.co.uk)

The course book we use, 'Allez', has an online resource and assessment website, which you can find at www.kerboodle.com and the username and password are the child's first initial and surname with no capital letters and the institution code is: xin6. Homework, assessments and support tasks will be set through this platform.

There are also apps that can be downloaded onto iPads and other tablets/mobiles from the website. The same username and password apply.

For memorising and practising key verbs and vocabulary, the following website is really helpful:

www.language-gym.com

You may want to download other apps to help you with your learning. Ones that are useful are as follows:

French Verb Wheel

French Dictionary

Morfo Booth

Green Screen

Puppet Pals

Comic Life

Showbie

Please note below any other apps or websites that you find and are helpful to you in learning your French:
