Suggested year 5 activities for music March 2020

Practical activities.

You have all started some rhythm work based on the group "Stomp" who make music using everyday items as instruments and building up layers of repeating rhythms. They also use a lot of body percussion.

1. Compose your own repeating body percussion rhythms and write out a description of your pattern.
2. Write a simple story of a train journey, use a story board and add your body percussion sounds.
3. Include any calls that you might hear, eg "Mind the gap", "the train now standing at platform 4 is….." "Tickets please"
4. Write out your rhythms using, crotchets, minims and quavers if you can.
5. Watch any or all of these "Stomp" clips and write about your favourite parts.

Finally, there are many enjoyable ways to learn about body percussion and the best is to actually learn some beats yourself.
Follow the links and take part in a practical workshop every day!!
