

Parkfields Eco Committee

**Save energy to save our
planet!**

Climate crisis and global warming

You have
seen it in the
News.

Teachers talk
about it,
but...

You may be asking ...

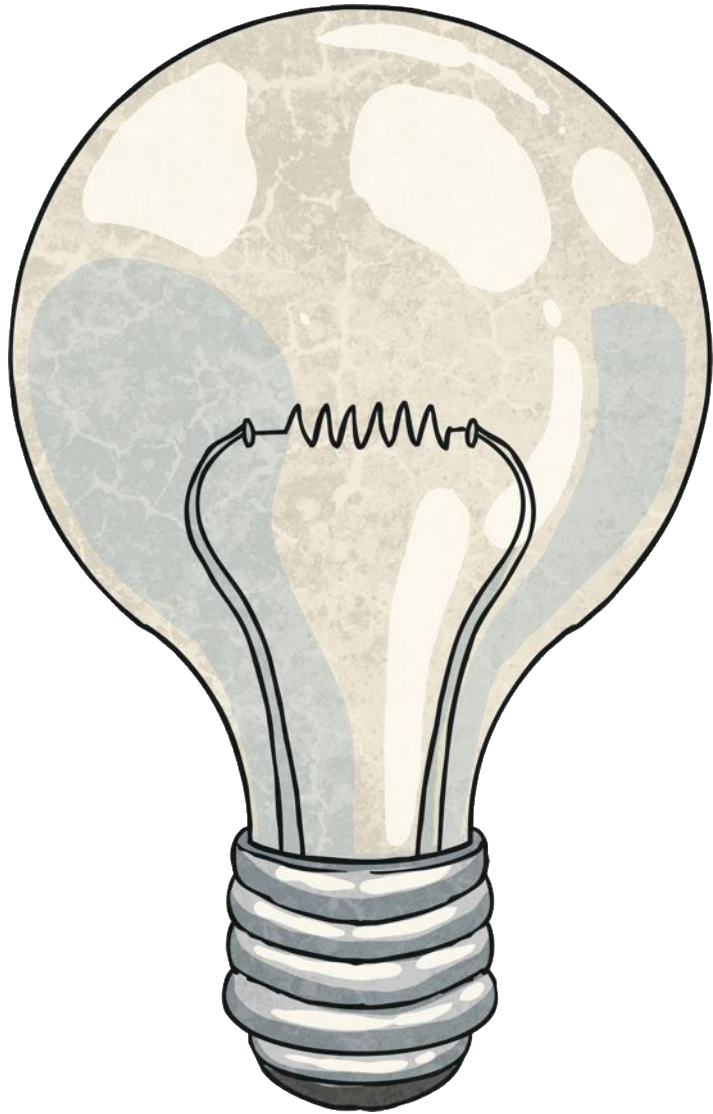

Eco Committee has a plan!

Part 1 of our plan:

If we all work together we can save energy at school and do our bit to save the planet.

Turn off the classroom light!

- Does it need to be on?
Open the blinds and turn off lights!
- Turn it off when you leave the room – **LAST ONE OUT, TURN OUT THAT LIGHT!**

Shut Down Your Electronics

When you finish using any electronics, shut them down completely.

Politely remind teachers to turn off boards when not in use!

Heating

- When the heating is on, **close all windows and doors** to save energy.
- If you're hot – **TURN THE HEATING DOWN**, don't open the windows!

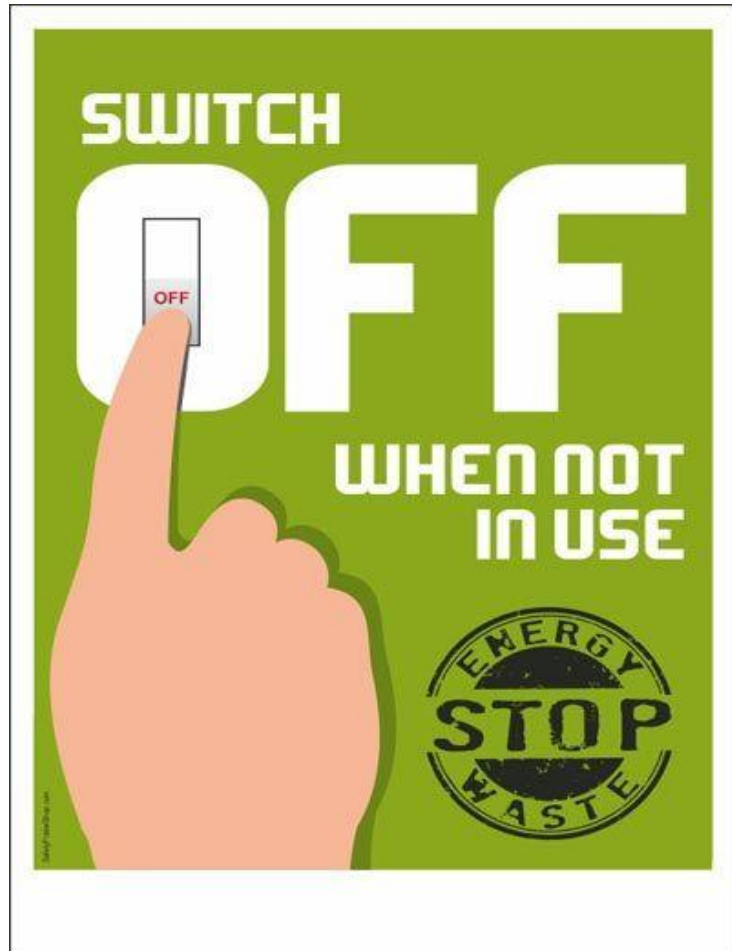

We can save energy if we all dress warmly.

Maybe not as many clothes as this!

But you could wear a plain tee shirt under your school shirt – it will keep you cosy!

The Eco-Committee is working on more plans. If you have any ideas, speak to a member of the committee, Mrs McNeil or Mrs Morley.
